# POINSETTIAS

All our Poinsettias are of the true Christmas variety, bearing large, brilliant flowers, with wide, wavy petals; the foliage dark green, heavy and close to the pots. They are without comparison in quality and the best we have ever raised. We have a limited stock in the three grades.

**X Grade**—Extra choice stock—a few dozen selected from thousands.

**A Grade**—Very good stock, with good foliage and large flowers.

**B Grade**—Fair stock which will stand comparison favorably with that of any other growers.

**Specimen Plants**, in 10, 12 or 14-inch pans, 6 to 10 plants in each pan, flowers 16 to 20 inches in diameter:

# CYCLAMENS

Having grown Cyclamens nearly 15 years and succeeded in saving our own seed of choicest strain, improved year by year and acclimated to southern California, our Cyclamens are robust and compact, with dark, stocky foliage and extra large, finely colored flowers. So remarkably fine are our plants that the individual sizes will grade up better than those of most other growers in pots one or two sizes larger.
